Contents

- Legal framework
- Institutional Framework
- Challenges
- Adaptation and Mitigation
- Conclusion

Legal framework

- Environmental policy in place;
- Organic law for 2005;
- Ministerial Orders for specific projects such as those determining activities and works on that require EIAs;

Institutional framework

- Ministry of Environment and Natural Resources;
- Rwanda Environment Management Authority with Climate change Department;
- Rwanda Natural Resource Authority;
- Rwanda Development Board where EIA was transferred to promote green investments;
- EDPRS 11 which high lights green growth and economy in its one the economic transformation;

Challenges

- Un predictable seasons which affects; agriculture and live stock;
- Long droughts and floods;
- Lack of enough infrastructures;
- Loss of Flora and Fauna.

Adaptation and mitigations measures

- Promote Green Energy (hydro power, solar energy etc
- Improved agricultural methods from rain fed to irrigation;
- Introduction of zero grazing which promotes organic manure and biogaz;
- Use of saving energy cooking stoves locally known as rondereza

Cont'n

- Afforestation and agro-forestry activities;
- Improve on public transport
- Introduction of FONERWA fund for Environment and climate change;
- Introduced solar water heaters and energy saving bulbs in collaboration with Rwanda Energy Group;
- Awareness campaigns and trainings;

conclusion

- Lobby decision makers;
- Share information;
- Continue create awareness;
- Move from passion to action.

Thank you
